**(100) Service Quality Improvement Reporting
Data Collection Form**

FCC Form 481

OMB Control No. 3060-0986/OMB Control No. 3060-0819

July 2013

<010>	Study Area Code	150078
<015>	Study Area Name	CHAUTAUQUA & ERIE
<020>	Program Year	2014
<030>	Contact Name - Person USAC should contact regarding this data	Barbara Galardo
<035>	Contact Telephone Number - Number of person identified in data line <030>	207-535-4126
<039>	Contact Email Address - Email Address of person identified in data line <030>	bgalardo@fairpoint.com
<110>	Has your company received its ETC certification from the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
	If your answer to Line <110> is yes, do you have an existing §54.202(a) "5	
<111>	year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

- <112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

 Name of Attached Document (.pdf)

Please check these boxes below to confirm that the attached PDF, on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How (USF) was used to improve service quality
- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Chautauqua & Erie Telephone Corporation ("C&E") provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The tariff pages outlining the terms of the Lifeline offering in Chautauqua & Erie Telephone Corporation, including the pages of the New York Telecommunications Association, Inc. Tariff P.S.C. No. 2 with which C&E concurs, are attached. The terms and conditions of residential local service can be found at <http://www.tariffs.net/fairpoint/tier.asp?cid=1644>

A. LIFELINE TELEPHONE SERVICE

1. Lifeline Telephone Service Options

a. Description

1. Lifeline Discounted Service

This service provides a flat rate federal discount of \$9.25, consisting of a \$6.50 reduction of the Federal Subscriber Line Charge and a \$2.75 reduction in the monthly rate for local exchange telephone service for residential customers. Qualified customers may choose any type or grade of local telephone service, including bundled services that are normally offered by the Company. (C)

+

+

1 A. Additional Lifeline Discount

This service provides the discount as outlined in A.1.a.1 above and may provide an additional discount equal to the serving company's increase in residential basic local exchange service, as authorized by the NYS Department of Public Service in Case No. 07-C-0349, released March 4, 2008, whereby the NY Commission authorized certain companies to increase basic local service rates up to \$2.00 per year for 2 years. The discount can be found on Addendum 1 of the individual Company tariff for those companies offering the Additional Lifeline Discount.

2. Regulations

- a. These services are restricted to low income residential customers. To qualify for Lifeline service a customer must certify and provide documentation as income eligible. For a consumer to be eligible under the income requirements, the consumer's household income as defined in § 54.400(f) of the FCC Rules must be at or below 135% of the Federal Poverty Guidelines for a household of that size or a recipient of benefits from any one of the following Entitlement Programs: (C)
(C)
1. Medicaid;
 2. Supplemental Nutrition Assistance Program (SNAP) F/K/A Food stamps;
 3. Supplemental Security Income;
 4. Federal Public Housing Assistance (Section 8);
 5. Low-Income Home Energy Assistance Program (LIHEAP);
 6. National School Lunch Program's free lunch program;
 7. Temporary Assistance for Needy Families/SafetyNet; (C)
 8. Veterans Disability Pension
 9. Veterans Surviving Spouse Pension

2. Regulations (cont'd)

- b. The Lifeline discount is effective upon receipt of a completed form of eligibility. If the form is not returned, no further action is taken by the Company to establish eligibility. +
- c. The Company, in coordination with appropriate agencies and the Lifeline Customer, will require Lifeline customers to be re-certified, on an annual basis. Lifeline customers will need to certify that they continue to be eligible to receive these Lifeline benefits and that they are not receiving benefits from another company. If a customer is identified as being ineligible, the customer will be notified that unless the information is shown to be in error, the Lifeline discount will be discontinued. The customer will be billed for discounts received for the time that they were proven to be ineligible for the service. (C)

3. Locality Charge Waiver +

Customers receiving Lifeline Telephone Service will have applicable locality charges waived each month while they are receiving the Lifeline Assistance.

4. Voluntary Toll Blocking (Restriction)

Customers receiving Lifeline service can voluntarily request and receive toll blocking (call restriction), third number billing/collect call restriction without a monthly charge. There will be no record order charge to add these types of restrictions (blocking).

Service Quality Reporting/Consumer Protection Rules Compliance:

Chautauqua & Erie Telephone Corp., hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The New York Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer Inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

Berkshire Telephone Corporation d/b/a FairPoint Communications, Chautauqua & Erie Telephone Corporation d/b/a FairPoint Communications, and Taconic Telephone Corporation d/b/a FairPoint Communications, are all under Service Quality Reporting under 603.4 (Reporting Requirements). The rule states that Service Providers with 500,000 or fewer access lines in service shall only report on Customer Trouble Report Rate. Each of the above New York companies report monthly on the Customer Trouble Report Rate (CTRR). The rule goes on to state that for Customer Trouble Report Rate, a service provider shall automatically submit to the Commission staff a Service Inquiry Report whenever an individual central office entity experiences 5.5 reports per 100 lines or greater for the current month and any two of the previous four months. The FairPoint New York Companies are below the report rate, and therefore, no Service Inquiry Reports are necessary.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan (BCP) is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope & Structure
- Recovery Strategies and Logistics
- Plan Maintenance and Exercising

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- Customer Interfacing – It is recognized that a "business impact" only occurs when an external-interfacing element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity – Without critical infrastructure systems, the ability for all other FairPoint business operations (back/front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff, service utilities, telecom network, IT network, etc.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- IT/IS
- Administrative and Support Operations
- Inside and Outside Plant Operations
- NOC (Network Operations Center)
- E-9-1-1
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents (i.e., work-stoppage and pandemic). All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications

1 Davis Farm Road
Portland, ME 04103

Barney Boynton
Director, Operational Risk

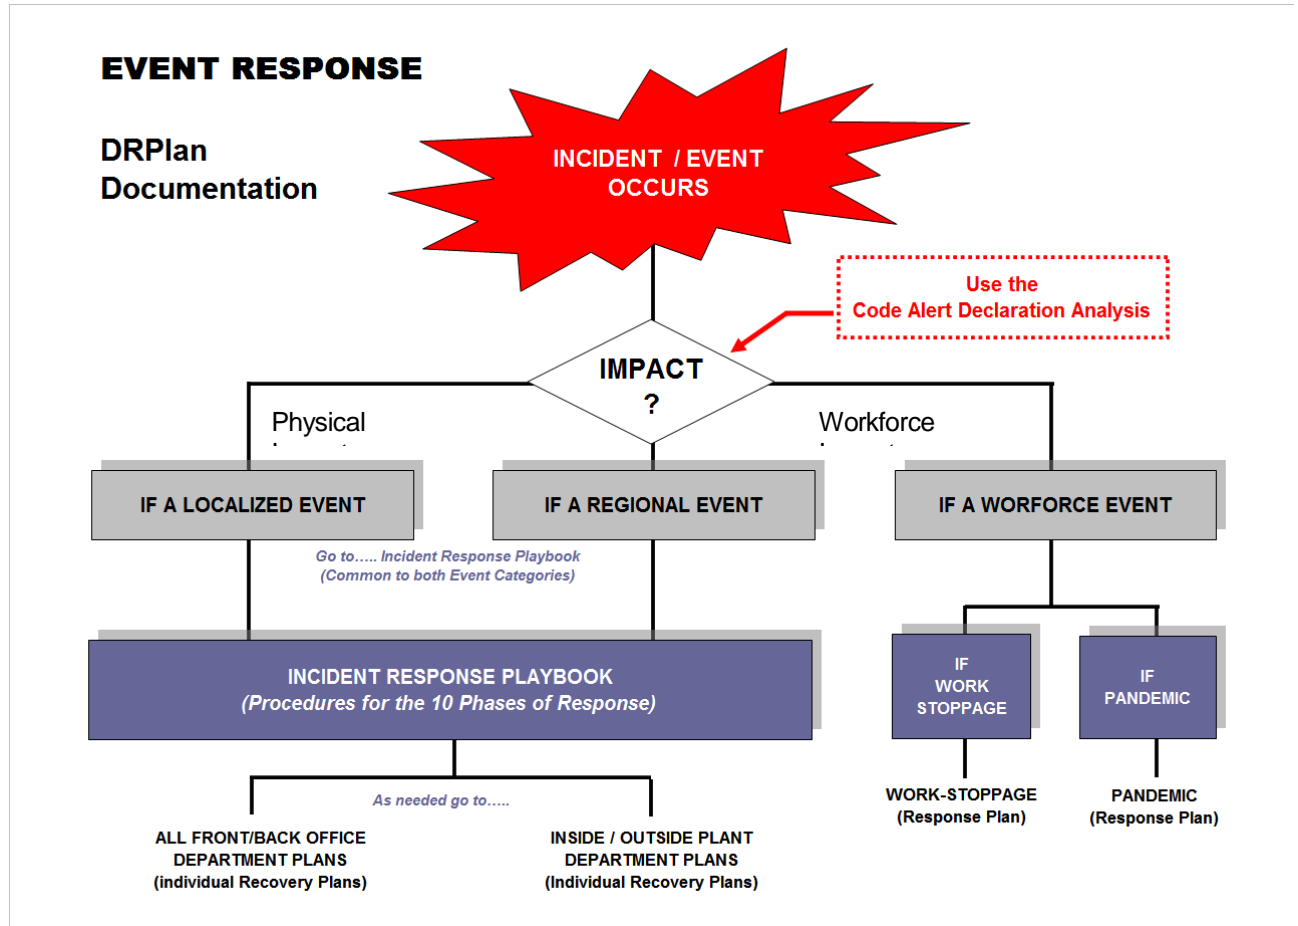

BCP Structure

The BCP consists of several components:

- The BCP Manual (an overview of all BCP documents)
- IR Playbooks (addresses the response procedures for Physical and Workforce related events),
- Appendices (the IR Playbook procedures links to these Resources Files)
- Department Recovery Plans (Business and Plant Operations)
- Business Impact Assessments (Business and Plant Operations)

The Event Response diagram below identifies the overall BCP documentation and how a disruption or incident will dictate which path of the BCP will be followed to restore business operations.

Once the incident or disruption occurs, the impact first needs to be quickly assessed to determine whether it is a physically disruptive event (local or regional) ("Physically Disruptive Event") or a workforce disruptive event (work-stoppage or pandemic) ("Work-Force Related Disruptive Event"). The disruption is always focused on critical business operations and services that can impact customer interfacing / deliverables.

Recovery Strategies and Logistics

Our BCP is based on the premise that FairPoint cannot stop disasters from occurring, but we can address the IMPACT of incidents should they occur. Where possible we will provide risk mitigation measures that will minimize the likelihood of having a serious disruptive incident but in no case can we eliminate all disruptive possibilities. The BCP is triggered by a Disruption Scenario, not a Threat Scenario. FairPoint pre-plans for potential break-points that can result in a customer interfacing disruption and incorporates recovery strategies that will inherently address any potential threat and any resulting business disruption impact. The actual threat (i.e. fire, flood, etc.) is pertinent only with respect to immediate response activities. All subsequent response efforts are focused on the assessment of damages (physical losses and recovery duration) and the implementation of restoration and recovery strategies. The restoration of the business servicing operations and infrastructure systems is based on salvage, replacement of systems and alternate functionality measures, which are pre-defined in the BCP.

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements have a high level of consideration in

FairPoint Communications

1 Davis Farm Road
Portland, ME 04103

Barney Boynton
Director, Operational Risk

addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations.

The Ten Response Phases of Physical Event are:

- Incident Notification
- Visual Damage Assessment
- Incident Stabilization
- Command Center Initiation
- Initial Notifications to Business Departments – to activate plans
- Primary Site Damage Assessments
- Ready Alternate Restoration Sites
- Primary Site Salvage & Recovery
- Business Restoration Process
- Primary Site Re-established

Plan Maintenance and Exercising

The BCP is a living document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are scenario tested with oversight from FairPoint's Corporate Risk Management Team.
